

Charging Into the Future

Northwire EV Cable for Hybrid and Electric Vehicles

An innovation leader, Northwire offers EV Cable, a high-performance line of bulk cable, *CoilBoss™* Retractable Cords and complete cable solutions for ultrareliable charging of electric and hybrid vehicles and other equipment.

Northwire exceeds your cabling requirements with design services and prototyping, expert guidance to navigate automotive and EV standards, express delivery options and no minimum quantity or length requirements.

Northwire's EV Cables are guaranteed to perform with unparalleled durability. They are engineered to withstand severe temperature extremes and harsh environments, including exposure to oil, chemicals, abrasion, crushing and more.

Backed by Northwire's expertise, product quality and services, EV Cables are built to last.

- UL 62 approved; compatible with SAE J1772 connectors, UL 2594 and NEC 625 charging systems
- Available in standard cable or custom configurations that include composite designs, colors, private labeling, enhanced environmental or electrical performance and more
- Options include 600V EVE (TPE) and 600V EVT (PVC) cables from 2 to 18 AWG; and 300V EVJT (TPE) and 300V EVJT (PVC) cables from 12 to 18 AWG
- Standard jacket materials are exposed-run rated TPE or PVC employing PVC/nylon primaries
- Cables may include hybrid data, signal and communication cable in any AWG size
- Materials are RoHS compliant for EV charging stations in wet locations
- Ideal for electric vehicles (EV), neighborhood electric vehicles (NEV), battery electric vehicles (BEV), hybrid vehicles, low-speed vehicles (LSV), personal electric vehicles (PEV), plug-in hybrid vehicles (PHV) and plug-in hybrid electric vehicles (PHEV)
- Cables are compatible with charging applications at residences, commercial establishments, parking facilities or dedicated charging stations

For a complete solution—and the fastest delivery—turn to the innovative specialists with the technical expertise to give you the rugged cable performance you need. EV Cables from Northwire offer the most reliable solutions available.
