

The Brightest Innovation in Safety

Glow-In-The-Dark Cables, Power Cords and Retractable

Northwire's innovative ElectriGlow™ photoluminescent glow-in-the-dark products enhance aesthetics and improve safety in dark or low-light areas. The industry's first photoluminescent solution, ElectriGlow shines with unparalleled durability and guaranteed performance. UL 62-compliant custom ElectriGlow Cables, Power Cords and Retractable are available in 5 days or fewer with no minimum order quantity or length requirements.

The ElectriGlow line includes cables, power cords, retractiles, USB cables, charging cables and other innovative solutions for a variety of applications, including electric and hybrid vehicles and equipment, architectural lighting, industrial networking, control, instrumentation, power, data, communication and more.

- Glows for 22+ Hours on One Charge After Exposure to Light Source
- UL 62-Compliant

- All-over glow, up to 22+ hours on one charge after exposure to light source, depending on design
- Expert design and rapid prototyping services
- Electrical PVC power cords
 - o Pass all UL 62 qualification tests
 - o Flame, FT-1, FT-2, VW-1 and horizontal
 - o AWM 1061
 - o Cold bend – UL 62 –20°C
- TPU/TPE material
 - o Pass –60°C (glow time slightly reduced)
- TPU retractile cords
- Engineered to withstand crush, abrasion, oils, chemicals and temperature extremes
- Temperature-resistant materials available from –60°C to 105°C
- Available in green, blue, red and yellow
- Custom designs, private label options and over-mold assembly compatible
- Expertise to help navigate national and international standards, agency compliance, environmental regulations, electrical, ergonomic and aesthetic requirements
- Laboratory-tested to surpass real-world conditions

The innovative specialists, Northwire offers the fastest delivery—5 days or fewer—service excellence and technical expertise to provide the brilliant rugged cable performance you need.
